

Glossary

INDAP. Institute for agricultural development (Ministry of Agricultural)

ODEPA. Agrarian policy and studies bureau (Ministry of Agricultural)

SAG. Agricultural and livestock service (Ministry of Agricultural)

PABCO. Animal farm under official control (SAG program)

AVM. Approved Veterinarian (PABCO program)

OVM. Official Veterinarian (PABCO program)

EU. European Union.

FTA. Free Trade Agreement

DIRECON. General Directorate of international economics relations

FOB. Free on board

BSE. Bovine Spongiform Encephalopathy

OIE. Organization International

ASFM. Agreement of Sanitary and Phyto-Sanitary Measurements

WTO. World Trade Organization

FAO. Food and Agriculture Organization of the United Nations

Table Index

- Tab. 1: Main beef exports by destination, period 2000-2005 (tons)
- Tab. 2: Distribution of farm, area and usable land (ha)
- Tab. 3: Distribution of annual crops, vegetable, vineyard and fruit by farmer type
- Tab. 4: Animal distribution, different types of livestock by farmer type
- Tab. 5: Requirements by countries of exporting destination
- Tab. 6: Location of livestock farmers interviewed
- Tab. 7: Groups characteristics
- Tab. 8: Socioeconomics, Technological and Business characteristics
- Tab. 9: Approach to PABCO
- Tab. 10: Reasons for adopting or not adopting
- Tab. 11: Descriptive statistics question N° 7
- Tab. 12: Descriptive statistics question N° 8
- Tab. 13: Results linear regression PABCO satisfaction
- Tab. 14: Comparison means, attitude to PABCO
- Tab. 15: Factor analysis results
- Tab. 16: Results linear regression “intention” model
- Tab. 17: Results linear regression “behaviour” model

1	Introduction	5
2	Background.....	7
2.1	Chilean agricultural sector.....	7
2.1.1	Opportunities for Chilean agri-food sector.....	7
2.1.2	Free trade agreement and Agriculture	8
2.1.3	Peculiarities of beef export opportunities	9
2.2	Characteristics of Small Farmers in Chile	10
2.3	Beef cattle productive systems.....	13
2.4	Quality assurance systems	14
2.4.1	General aspects.....	14
2.4.2	Quality assurance systems in Chile	17
2.4.3	PABCO program	18
3	Methodology.....	21
3.1	Conceptual Framework	21
3.1.1	The adoption process	21
3.1.2	Introduction and overview on behavioural research	23
3.1.3	Theory of Planned Behaviour	25
3.1.4	Technology Acceptance Model.....	26
3.2	Research model.....	27
3.3	Objective and research question	28
3.3.1	Research questions	29
3.3.2	Hypothesis.....	29
4	Research design and data collection	29
4.1	Population and Sample	30
4.2	Data and empirical methods	31
5	Results and discussion.....	32
5.1	Characteristics of farmers	32
5.1.1	Description of the sample	32
5.1.2	Socio-economics characteristics.....	34
5.1.3	Technological characteristics	35
5.1.4	Business characteristics	36
5.2	Evaluation of the adoption process	37
5.2.1	General approach.....	37
5.2.2	Reasons for adopting or not adopting PABCO program.....	38
5.2.3	Implementation of PABCO at farm level	40
5.2.4	Satisfaction of PABCO results	40
5.3	Analysis of the model of adoption	42
5.3.1	Farmer's attitude to quality	42
5.3.2	Intention and behaviour evaluation	42
6	Conclusion and recommendations	48
6.1	Conclusions.....	48
6.2	Recommendations	49
7	References	50
